## Sustainable Eco-Friendly Solution

Having eco-friendly solutions through various research and development that consider the environment.

Extend the period of use of the product by using the refillable product.

Research to maximize recycling through material unification and simplification.

Development of various recycled products using PCR Resin.

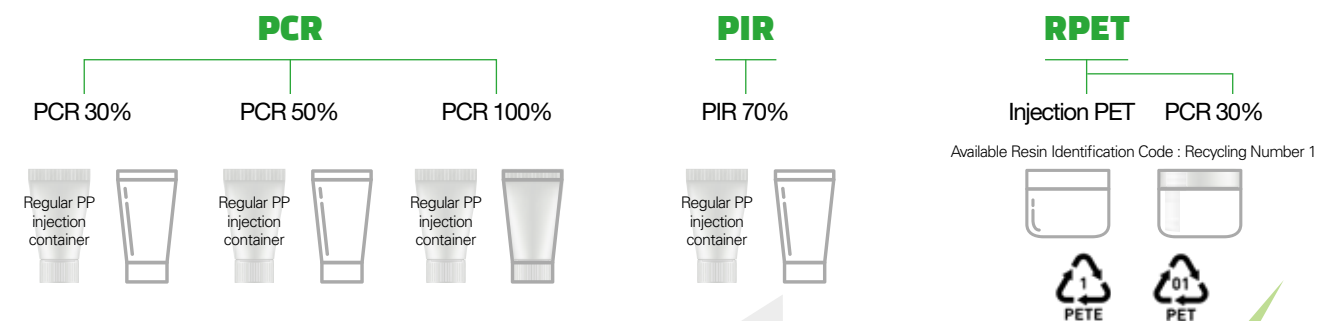

# Green Solution

## Sustainable Eco-Friendly Resin

Safety is the most important part of eco-friendly resin.

All eco-friendly Resin from INNOCOSTEC uses only safety-certified Resin.

※ Food Contact, MSDS, TDS, REACH Test

※ The left is a regular PP injection container for comparison.
